**An Interactive Art Experience**  
**with Gajin Fujita plus special guest OG Slick**

## LOS ANGELES PUBLIC LIBRARY | HELPING STUDENTS SUCCEED

Funds raised tonight will support the **Helping Students Succeed** umbrella of programming at the Library, which includes workshops to inspire a lifelong love of reading in our youngest Angelenos; online tutoring for K-12 and college students; safe study spaces with access to computers, homework helpers and academic resources; and civic engagement opportunities for teens.

### YOUNG LITERATI

The Library Foundation's Young Literati is a membership group for Angelenos in their 20s–40s who are engaged in the dynamic literary and cultural life of our city. Members enjoy exclusive access to creative and civic leaders, discounts on ticketed Foundation programs, and invitations to the best events on the calendar — all while supporting the vital work of the Los Angeles Public Library. Join us in building the Library of the 21st century.

### THE LIBRARY FOUNDATION OF LOS ANGELES

Celebrating its 30th anniversary in 2022, the Library Foundation of Los Angeles has partnered with the Los Angeles Public Library through fundraising, advocacy, and support. A product of the Save the Books campaign in the early 90s, the LFLA not only raises money for library programming, but also aids the library in its mission to make vital resources free and accessible to the public. Whether a long-time member, an ALOUD Series attendee, or a regular at The Library Store, your engagement helps the Library Foundation of Los Angeles continue to change the world through the power of libraries.

Special thanks to Annie Pham and the team at Studio Number One, and the amazing staff and Board of the Library Foundation of Los Angeles.
